What's your ambition? Is it a big goal or small steps? Professional or personal? Start your career, tree change or more interesting work? We'd like to know. We are leading in our industry and offer an exciting future to our most valuable asset – our people.

About Us

Multicom Resources Pty Ltd is developing the Saint Elmo Project which will involve the construction of a mine, concentrator and two refineries on site 15km east of Julia Creek. The refineries will produce the critical minerals of Vanadium and High Purity Alumina.

Our goal is for all full time operations personnel to live local in the Julia Creek region.

We are the only Australian company with capable of producing Vanadium and HPA with Government Environment Authority and Mining Leases Approved. We will be integral to Australia's battery revolution as Australia's leading vanadium and HPA proponent.

Multicom Resources can be described as an exploration and mineral processing company focused on the discovery and development of world class mineral deposits and has several tenements in addition to Saint Elmo. We are on a mission to bring high purity critical minerals to the world and become a reliable supplier for global technology manufacturers.

We offer more than a job, we provide growth, development and a future in Australia's most exciting critical minerals refining operation.

The Opportunity

We are looking for a mechanically minded individual to assist with a wide range of tasks at St Elmo Mine. This would be a perfect opportunity for someone wishing to develop their existing skills further into a trade qualification or chemical plant operator.

Desired Skills Required:

The successful applicant/s must have the ability to adapt to various work environments, work well in a team and have a positive outlook, attitude and willingness to assist other departments not really related to their primary role. You will be fit, healthy and able to pass a medical exam prior to

Multicom Resources Pty Ltd

Level 3, 310 Vulture Street, Kangaroo Point QLD 4169 Australia
